Stephania Kousoula

Software Engineer | Simulation Modeller

London, UK · stefkouss@gmail.com · +44 7519 765952

linkedin.com/in/stephania-kousoula · github.com/stefkous · stefkous.github.io

PROFILE

Software Engineer and Simulation Modeller focused on Python, discrete-event simulation, data engineering and spatial analytics. I build simulation systems and data tools for operational decision-making, drawing on an interdisciplinary engineering background.

PROFESSIONAL EXPERIENCE

KALLIKOR | Improbable

Modelling Engineer | March 2025 – Present · London, UK

- Develop Python discrete-event models of warehouse and supply-chain operations; analyse results to assess performance and locate bottlenecks.
- Build reusable ETL and validation pipelines, shared modelling components, automated tests and workflow tools.
- Work with engineering teams on software architecture, simulation integration and reliable development workflows.

Tools *Python · SimPy · Pandas · NumPy · Pydantic · Pytest · AWS S3 · Git*

BRYDEN WOOD

Software Developer | Spatial Data Scientist | January 2022 – Early 2025 · London & Patras

- Developed Python ETL pipelines, geospatial workflows and Flask REST APIs for web applications.
- Prototyped discrete-event and agent-based simulations and built interactive Three.js visualisations.
- Tested, deployed and maintained applications with Docker, Git and CI/CD.

Tools *Python · Flask · GeoPandas · GDAL · Shapely · SimPy · Three.js · Docker · Git*

INRIA SOPHIA ANTIPOLIS

Freelance Photogrammetry Consultant | November 2021 – January 2022 · Nice, France

- Created photogrammetry-based 3D models and research visualisations in Rhino and Blender.

Tools *Rhino · Blender · Photogrammetry*

TECHNICAL SKILLS

Programming & backend

Python · JavaScript · Flask · REST APIs · Git · Docker · CI/CD

Simulation & data

SimPy · AnyLogic · Pandas · NumPy · SciPy · Pydantic · Pytest · ETL · SQL · MongoDB · AWS S3

Geospatial

GeoPandas · GDAL · Shapely · rasterio · Fiona · QGIS · ArcGIS

Visualisation

Three.js · HTML/CSS · Node.js · Streamlit · Matplotlib · Plotly · Power BI · Tableau

Design & research

Rhino · Grasshopper · Blender · AutoCAD · Unity · OpenCV · Adobe Suite · Figma

EDUCATION

Master in City and Technology (MaCT)

Institute for Advanced Architecture of Catalonia (IAAC) & Universitat Politècnica de Catalunya (UPC)

2020–2021 · Barcelona, Spain

Urban systems, computational design, digital technologies and data-driven planning.

BSc & MSc in Architectural Engineering

Democritus University of Thrace (DUTH)

2012–2019 · Xanthi, Greece

LANGUAGES

Greek — Native

English — C2 (IELTS 8/9)

French — B2

Spanish — Beginner
